

Bird Week Exhibition

2024 theme: Spark

How one bird can change everything

Is there a bird you accidentally noticed or unexpectedly encountered or one that made your heart skip a beat & fall in love with? The One that ignited your birding passion or made you appreciate your local feathered friends.

If so, this is your "Spark bird" a term used by birders to describe that first bird that got them seriously interested in birding.

This exhibition is very personal, it not only celebrates favourite birds, we will be sharing stories from our hearts about the flighty friends we first noticed that got us a little obsessed!
